1. EUPHA update

Questionnaire organised by the PRECeDI project

EUPHA is very happy to be a partner of the project “Personalized pREvention of Chronic Diseases consortium (PRECeDI)”, funded by the Marie Skłodowska-Curie EU programme. The aim of this project is to provide high-quality, multidisciplinary knowledge through training and research in Personalized Medicine, with specific reference to prevention of chronic diseases. The project consortium consists of 11 partners, including EUPHA.

In order to assess European public health professionals’ knowledge and attitudes regarding the practical application of genome-based knowledge and technologies in public health (Public Health Genomics), we would like to invite you to take some time and complete an anonymous survey aimed at assessing.

Please click the link below to access the survey:

<http://www.ifsurvey.it/dmssun/index.php/726433?lang=en>

EUPHA represented at DG Sante's conference on Vaccination hesitancy

Dr Günter Pfaff, vice president of the EUPHA section on Infectious diseases control represented EUPHA at the DG Sante conference “Vaccination hesitancy in Europe: Facts, Opinions and the Way Forward” which took place on 15 February 2017, in Brussels, Belgium. This event is organized by the Trainees of the Directorate General for Health and Food Safety (DG SANTE) of the European Commission.

Objectives of the conference were:

The event is addressed to the European Institutions’ employees and trainees, as well as to all other stakeholders concerned by the topic. Its objective is to draft recommendations on possible solutions to tackle vaccination hesitancy to be further disseminated to the European Commission and other key stakeholders.

Dr Pfaff gave a presentation entitled "No one-size-fits-all remedy: understanding reasons for vaccine hesitancy".

EUPHA Section Council meeting

The EUPHA Section Council meeting took place on 15-16 February in Utrecht, The Netherlands. 18 of the 21 sections and EUPHAnxt participated in this event, which was attended by the EUPHA president as well. Under leadership of the new Section Council chair: Dr Iveta Nagyova, the sections discussed collaboration, satellite meetings, and section rules. The biggest part of the meeting was focused at the planning of pre conferences and (joint) workshops at the Stockholm 2017 conference.

2. European Public Health Conference

10th European Public Health Conference: ‘Sustaining resilient and healthy communities’, Stockholmsmässan, Stockholm, 1 - 4 November 2017
Stockholm 2017: ‘Everybody will be there’

Abstracts are invited

Abstract submission does not have to be confined to the conference theme ‘Sustaining resilient and healthy communities’. Abstracts are invited for workshops, oral presentations, pitch presentations and posters. Prizes will be awarded for the best oral, poster and early career professional’s presentation. Do not miss the opportunity to be recognized for your hard work. Abstracts and workshop proposals can be submitted [here](#).

Abstract Mentor Programme

The Abstract Mentor Programme offers an opportunity for young and/or less experienced abstract submitters to receive feedback from experienced reviewers on their abstracts. See the [EPH Conference website](#) for more information.

Registration

[Registration](#) for the 10th EPH Conference opens 1 April 2017. You can benefit from early bird registration fees until 1 September. We are expecting over 1,500 delegates. Meet your colleagues at the largest public health event in Europe and register early to benefit from the reduced rates. Please note that we succeeded in keeping the fees at the same level as last year. Early bird registration fees for EUPHA members are EUR 600. Non-members pay EUR 680, Students pay EUR 420 (all including VAT).

Pre conferences, Lunch Symposiums, Exhibition

The EPH Conference offers interesting opportunities for pre conferences and lunch symposiums. If you have plans for a lunch symposium, pre conference or an exhibition stand at the conference, please contact office@ephconference.eu. Pre conferences can be booked online once the pre conference programme is completed in May. They can be added to your earlier made registration at all times.

3. EUPHA members update

NPHF: annual conference 'The professional makes the difference'

The Netherlands Public Health Federation is co-organising the annual public health conference on 12-13 April 2017 in Amersfoort, The Netherlands. This conference combines research, practice and policy.

<https://www.aanmelder.nl/ncvgz2017>

SFSP: General Assembly meeting

The General Assembly of the French Society of public health will be organised on 29 March 2017 in Paris.

4. European Journal of Public Health

The [European Journal of Public Health](#) is a multidisciplinary journal in the field of public health.

The EJPH is published bimonthly. The journal provides a forum for discussion and debate of current international public health issues with a focus on the European region. In 2016, the impact factor of the journal is at 2.751. The 5-year impact factor is 2.512.

The EJPH is the official journal of EUPHA.

5. Call for proposals, job opportunities

University of Saskatchewan: Executive Director, school of public health

The University of Saskatchewan invites expressions of interest, nominations and applications for the position of Executive Director, School of Public Health. Located in Saskatoon, situated on Treaty Six territory and the traditional homeland of the Métis, and home to over 23,000 students, faculty and staff, the University of Saskatchewan is a major research-intensive university and a member of the U15, the top research universities in Canada. The university is a leader in community-engaged scholarship, which connects research, teaching and learning with the needs and interests of local and global communities. With one of the highest populations of Aboriginal students among Canadian post-secondary institutions, the university puts particular emphasis on fostering Aboriginal student success. Reporting to the provost and vice-president academic, the executive director provides leadership to a school renowned for its distinguished faculty members drawn from the Colleges of Arts and Science, Kinesiology, Medicine, Nursing, Pharmacy and Nutrition and Veterinary Medicine. The executive director will have the ability to fairly balance the demands of an interdisciplinary school and capitalize on opportunities for synergy and collaboration across campus and externally.

The successful candidate will possess a strong record of scholarly achievement as well as progressive and relevant experience in administration and advancement activities. This exciting opportunity demands superb interpersonal and communication skills, sound judgment to lead the progressive development of academic programs and research within the School of Public Health. As a member of the university's senior executive team, she or he will also play a significant and influential role in institutional initiatives.

To learn more about this exciting opportunity, please call Khaleeda Jamal or Maureen Geldart of The Geldart Group at (604) 926.0005 or forward your application package (current CV, letter of application and reference list) in confidence to khaleeda@thegeldartgroup.com

6. Interesting news

Norway pledges \$10 million to counter Trump's global anti-abortion move

Norway has joined an international initiative to raise millions of dollars to replace shortfalls left by U.S. President Donald Trump's ban on U.S.-funded groups worldwide providing information on abortion. In January, the Netherlands started a global fund to help women access abortion services, saying Trump's "global gag rule" meant a funding gap of \$600 million over the next four years, and has pledged \$10 million to the initiative to replace that. Sweden, Denmark, Belgium, Luxembourg, Finland, Canada and Cape Verde have all also lent their support.

<http://www.reuters.com/article/us-usa-tr...>

Eight countries sign up to counter Trump's global anti-abortion move

Eight countries have joined an initiative to raise millions of dollars to replace shortfalls caused by President Donald Trump's ban on U.S.-funded groups around the world providing information on abortion, Sweden's deputy prime minister said. A conference will be held on March 2 in Brussels to

kick-start the funding initiative to help non-governmental organizations whose family planning projects could be affected.

Disease 'superspreaders' accounted for nearly two-thirds of Ebola cases, study finds

Scientists studying how Ebola spread during the 2014-2015 epidemic in West Africa say superspreaders played a bigger role than was previously known, according to findings published this week in the Proceedings of the National Academy of Sciences. If 'superspreading' had been completely controlled, almost two-thirds of the infections might have been prevented, scientists said.

<https://www.washingtonpost.com/news/to-y...>

Nonmedical use of prescription drugs among young people: A growing global concern

Balancing a country's need to make prescription drugs available to those in need while simultaneously curbing nonmedical use is one of our greatest challenges. A new article shows increased rates of deaths worldwide from prescription opioids as high as 550 percent depending on country and time-period. For example, from 2000 to 2014, there was a 200 percent increase in overdose deaths due to opioid use.

<https://www.sciencedaily.com/releases/20...>

Salt reduction policies cost-effective even without healthcare savings

Government policies designed to reduce how much salt people eat may be cost-effective even without considering the potential healthcare savings, a recent study suggests. Reducing sodium intake can significantly lower blood pressure in adults, in turn helping to lower the risk of cardiovascular disease.

Protecting world's most vulnerable populations from climate change

Many lessons for addressing the effects of climate change were shared throughout the course of the [Climate and Health Meeting](#), held Feb. 16 at the Carter Center in Atlanta, and one panel discussed ways we can find solutions from a less obvious source: low- and middle-income countries.

<http://www.publichealthnewswire.org/?p=1...>

London coughing through winter as air pollution makes people sick

London is choking from record levels of pollution, much of it caused by diesel cars and trucks, and wood-burning fires in private homes, a growing trend. It has been bad enough to evoke comparisons to the Great Smog of December 1952, when fumes from factories and home chimneys are thought to have killed as many as 12,000 Londoners.
